## SUMMARY SECTION

### INVESTMENT OBJECTIVE

The Hood River International Opportunity Fund (the “Fund”) seeks long-term growth of capital.

### FEES AND EXPENSES OF THE FUND

This table describes the fees and expenses that you may pay if you buy, hold, and sell shares of the Fund. **You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the table and Example below.**

#### Annual Fund Operating Expenses

(expenses that you pay each year as a percentage of the value of your investment):

	Institutional Shares	Investor Shares <sup>1</sup>	Retirement Shares <sup>1</sup>
Management Fees	1.30%	1.30%	1.30%
Distribution (12b-1) and/or Service Fees	None	0.25%	None
Shareholder Servicing Fee <sup>2</sup>	0.10%	0.10%	None
Other Expenses <sup>3,4</sup>	8.92%	8.92%	8.92%
Total Annual Fund Operating Expenses	10.32%	10.57%	10.22%
Fee Waivers/Expense Reimbursements <sup>5</sup>	-8.81%	-8.81%	-8.81%
Total Annual Fund Operating Expenses After Fee Waivers/Expense Reimbursements	1.51%	1.76%	1.41%

<sup>1</sup> Investor Shares and Retirement Shares are not currently offered.

<sup>2</sup> The Fund has implemented a Shareholder Servicing Plan on behalf of its Institutional and Investor Shares that allows the Fund to make payments of up to 0.10% for Institutional and Investor Shares to financial intermediaries and other service providers for Institutional and Investor shareholders in return for shareholder servicing and maintenance of Institutional and Investor shareholder accounts.

<sup>3</sup> As the Fund is new, these expenses are based on estimated amounts for the Fund’s current fiscal year.

<sup>4</sup> “Other Expenses” include Acquired Fund Fees and Expenses of one basis point, which is estimated for the Fund’s current fiscal year.

<sup>5</sup> Hood River Capital Management LLC (“Hood River” or the “Adviser”), the Fund’s investment adviser, has contractually agreed to waive a portion of its fees and reimburse certain expenses for the Fund to limit the total annual fund operating expenses (excluding taxes, Rule 12b-1 fees, shareholder servicing fees, extraordinary expenses, brokerage commissions, interest and acquired fund fees and expenses (collectively, “Excludable Expenses”)) to 1.40%. To the extent the Fund or a share class of the Fund incurs Excludable Expenses, Total Annual Fund Operating Expenses After Fee Waivers/Expense Reimbursements will be greater than 1.40%. The waivers and reimbursements will remain in effect through September 28, 2024 unless terminated sooner by mutual agreement of the Fund’s Board of Trustees (the “Board”) and Hood River. The Adviser may request recoupment of previously waived fees and paid expenses from the Fund for 36 months from the date such fees and expenses were waived or paid, if such reimbursement will not cause the Fund’s total expense ratio to exceed the expense limitation in place at the time of the waiver and/or expense payment and the expense limitation in place at the time of the recoupment.

### EXAMPLE

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund’s operating expenses remain the same. The fee waiver/expense reimbursement arrangement included in the table above is reflected through September 28, 2024. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	<b>1 Year</b>	<b>3 Years</b>
Institutional Shares	\$154	\$477
Investor Shares	\$179	\$554
Retirement Shares	\$144	\$446

### PORTFOLIO TURNOVER

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in the annual fund operating expenses or in the Example, affect the Fund’s performance. Because the Fund is newly organized, portfolio turnover information is not yet available.

## ***PRINCIPAL INVESTMENT STRATEGIES***

The Fund will invest primarily in common stocks and other equity securities of small-capitalization companies that are located in non-U.S. developed or emerging markets countries. In selecting securities for the Fund, Hood River seeks to invest in common stocks that are judged by Hood River to have strong growth characteristics or to be undervalued in the marketplace relative to underlying profitability.

Under normal market conditions, the Fund will invest in issuers located in at least ten of the countries included in the Morgan Stanley Capital International (MSCI) AC (All Country) World Index ex USA Small Cap Index.

The Fund may invest a significant portion of its assets (up to 50% under normal market conditions) at the time of purchase in securities of companies located in emerging markets countries. Emerging markets are those countries designated by the MSCI Emerging Markets Index. The Fund may also invest in pre-emerging markets, also known as frontier markets. The Fund may invest a large portion of its assets in a particular region or market, including Japan and European countries.

The Fund's investments in foreign securities may include American Depositary Receipts ("ADRs"), Global Depositary Receipts ("GDRs"), European Depositary Receipts ("EDRs"), and International Depositary Receipts ("IDRs"). The Fund may also invest in preferred stock, real estate investment trusts ("REITs"), rights, and warrants. The Fund may purchase securities of companies engaged in initial public offerings ("IPOs").

The Fund may invest in the securities of other investment companies, including exchange-traded funds ("ETFs"), to the extent permitted by the Investment Company Act of 1940, as amended (the "1940 Act"), and the rules thereunder.

In selecting securities, the research process utilized by Hood River begins by screening a universe of stocks with market capitalizations of generally less than \$5 billion which exhibit strong growth characteristics and attractive valuation relative to underlying profitability. In order to identify companies with such attributes, Hood River conducts fundamental analysis through discussions with management, customers, suppliers, competitors, and industry experts to forecast financial metrics for a potential investment target. The Fund's portfolio will consist of companies for which Hood River has conviction in its own proprietary estimates and believes that they are significantly higher than consensus estimates.

The Fund is expected to maintain a portfolio of approximately 80-85 stocks, which is constructed with the overall goal of mitigating both issuer-specific and portfolio risk. Idiosyncratic risk is reduced by obtaining several independent data points that support Hood River's financial model. Portfolio risk is addressed through position and sector sizing limits. The Fund is expected to have significant exposure to the health care and information technology sectors. However, the actual amount of the portfolio holdings may vary due to market conditions.

Hood River periodically engages in active trading of Fund securities.

Hood River generally sells stocks when it believes they have become overvalued, when the fundamentals weaken, or if poor relative price performance persists.

## ***PRINCIPAL RISKS***

Before investing in the Fund, you should carefully consider your own investment goals, the amount of time you are willing to leave your money invested, and the amount of risk you are willing to take. Remember, in addition to possibly not achieving your investment goals, you could lose all or a portion of your investment in the Fund over long or even short periods of time. The principal risks of investing in the Fund are:

- **General Market Risk; Recent Market Events:** The value of the Fund's shares will fluctuate based on the performance of the Fund's investments and other factors affecting the securities markets generally. Certain investments selected for the Fund's portfolio may be worth less than the price originally paid for them, or less than they were worth at an earlier time. The value of the Fund's investments may go up or down, sometimes dramatically and unpredictably, based on current market conditions, such as real or perceived adverse political or economic conditions, inflation, changes in interest rates, lack of liquidity in the fixed income markets or adverse investor sentiment.

U.S. and international markets have experienced significant periods of volatility in recent months and years due to a number of economic, political and global macro factors, including the impact of the coronavirus (COVID-19) global pandemic which resulted in a public health crisis, business interruptions, growth concerns in the U.S. and overseas, travel restrictions, changed social behaviors, rising inflation, and reduced consumer spending. While U.S. and global economies are recovering from the effects of COVID-19 the recovery is proceeding at slower than expected rates and may last for a prolonged period of time.

- **Equity Risk:** Common stocks and other equity securities generally increase or decrease in value based on the earnings of a company and on general industry and market conditions. A fund that invests a significant amount of its assets in common stocks and other equity securities is likely to have greater fluctuations in share price than a fund that invests a significant portion of its assets in fixed income securities.
- **Small Company Risk:** The Fund is subject to greater volatility than funds that invest in large-cap companies. Small-cap companies may be more vulnerable than large-cap companies to adverse business or economic developments, their securities may be less liquid and more volatile than securities of larger companies, and they may suffer significant losses. Small-cap companies may also be more difficult to value than large-cap companies.
- **Growth Investing Risk:** Growth stocks are typically priced higher than other stocks, in relation to earnings and other measures, because investors believe they have more growth potential. Growth prices tend to fluctuate more dramatically than the overall stock market.
- **Value Investing Risk:** The Fund may be wrong in its assessment of a company's value or the market may not recognize improving fundamentals as quickly as the Fund anticipated. In such cases, the stock may not reach the price that reflects the intrinsic value of the company.
- **Management Risk:** The performance of the Fund will depend on whether or not Hood River is successful in pursuing the Fund's investment strategies.
- **Sector Emphasis Risk:** Although Hood River selects stocks based on their individual merits, some economic sectors will represent a larger portion of the Fund's overall investment portfolio than other sectors. Potential negative market or economic developments affecting one of the larger sectors could have a greater impact on the Fund than on a fund with fewer holdings in that sector.
  - *Health Care Sector Risk:* To the extent that the Fund invests a significant portion of its assets in the health care sector, the Fund will be sensitive to risks affecting health care companies. Companies in the health care sector are subject to government regulation and may be affected by reimbursement rates, government approval of products and services, patent protection and research and development costs.
  - *Information Technology Sector Risk:* Market or economic factors impacting information technology companies and companies that rely heavily on technological advances could have a significant effect on the value of the Fund's investments. The value of stocks of information technology companies and companies that rely heavily on technology is particularly vulnerable to rapid changes in technology product cycles, rapid product obsolescence, government regulation and competition, both domestically and internationally, including competition from foreign competitors with lower production costs. Stocks of information technology companies and companies that rely heavily on technology, especially those of smaller, less-seasoned companies, tend to be more volatile than the overall market. Information technology companies are heavily dependent on patent and intellectual property rights, the loss or impairment of which may adversely affect profitability.
- **Valuation Risk:** It is possible to lose money by investing in the Fund. There is no guarantee that stocks in general or the specific securities that the Fund buys will increase in value.
- **Foreign Security Risk:** Investments in a foreign market are subject to foreign security risk. A change in value of a foreign currency against the U.S. dollar will result in a change in the U.S. dollar value of securities denominated in that foreign currency. Additionally, the value of foreign investments may be affected by exchange control regulations, expropriation or nationalization of a company's assets, foreign taxes, higher transaction and other costs, delays in settlement of transactions, changes in economic or monetary policy in the U.S. or abroad, or other political and economic factors. Income and dividends earned on foreign investments may be subject to foreign withholding taxes.
- **Emerging and Frontier Markets Risk:** Countries in emerging markets are generally more volatile and can have relatively unstable governments, social and legal systems that do not protect shareholders, economies based on only a few industries, and securities markets that trade a small number of issues. Frontier market countries generally have smaller economies and even less developed capital markets than emerging markets. As a result, the risks of investing in emerging markets are magnified in frontier markets, and include potential for extreme price volatility and illiquidity; government ownership or control of parts of private sector and of certain companies; trade barriers, exchange controls, managed adjustments in relative currency values and other protectionist measures; and relatively new and unsettled securities laws.

- **Foreign Currency Risk:** The Fund may invest in securities or other instruments denominated in non-U.S. currencies. Such investments involve currency risks, including unfavorable currency exchange rate developments and political or governmental intervention in currency trading or valuation. These risks are higher in emerging markets.
- **Geographic Investment Risk:** To the extent the Fund invests a significant portion of its assets in the securities of companies of a single country or region, it is more likely to be impacted by events or conditions affecting that country or region.
  - *Risks Related to Investing in Japan:* The Japanese economy may be subject to considerable degrees of economic, political and social instability, which could have a negative impact on Japanese securities. Since the year 2000, Japan’s economic growth rate has remained relatively low and it may remain low in the future. In addition, Japan is subject to the risk of natural disasters, such as earthquakes, volcanoes, typhoons and tsunamis. Additionally, decreasing U.S. imports, new trade regulations, changes in the U.S. dollar exchange rates, a recession in the United States or continued increases in foreclosure rates may have an adverse impact on the economy of Japan. Japan also has few natural resources, and any fluctuation or shortage in the commodity markets could have a negative impact on Japanese securities.
  - *Risks Related to Investing in Europe:* The economies and markets of European countries are often closely connected and interdependent, and events in one country in Europe can have an adverse impact on other European countries. The Fund makes investments in securities of issuers that are domiciled in, or have significant operations in, member countries of the European Union (“EU”) that are subject to economic and monetary controls that can adversely affect the Fund’s investments. The European financial markets have experienced volatility and adverse trends in recent years and these events have adversely affected the exchange rate of the euro and may continue to significantly affect other European countries. Decreasing imports or exports, changes in governmental or EU regulations on trade, changes in the exchange rate of the euro, the default or threat of default by an EU member country on its sovereign debt, and/or an economic recession in an EU member country may have a significant adverse effect on the economies of EU member countries and their trading partners, including some or all of the European countries in which the Fund invests.

The UK formally exited from the EU on January 31, 2020 (known as “Brexit”). Although the UK and EU have made a trade agreement that was entered into force on May 1, 2021, certain post-EU arrangements were outside the scope of the negotiating mandate and remain unresolved and subject to further negotiation and agreement. There is significant market uncertainty regarding Brexit’s ramifications, and the range of possible political, regulatory, economic and market outcomes are difficult to predict. The uncertainty surrounding the UK’s economy, and its legal, political, and economic relationship with the remaining member states of the EU, may continue to be a source of instability and cause considerable disruption in securities markets, including increased volatility and illiquidity, as well as currency fluctuations in the British pound’s exchange rate against the U.S. dollar.

- **Depository Receipts Risk:** The Fund may invest its assets in securities of foreign issuers in the form of ADRs, EDRs, GDRs, and IDRs, which are securities representing securities of foreign issuers. The risk of such depository receipts includes many of the risks associated with investing directly in foreign securities, such as currency rate fluctuations and political and economic instability.
- **IPO Risk:** The Fund may purchase securities of companies engaged in IPOs. The price of securities purchased in IPOs can be very volatile. The Fund’s investments in IPO shares may include the securities of “unseasoned” companies (companies with less than three years of continuous operations), which present risks considerably greater than common stocks of more established companies. These companies may be involved in new and evolving businesses and may be vulnerable to competition and changes in technology, markets and economic conditions. They may be more dependent on key managers and third parties and may have limited product lines. The effect of IPO investments on the Fund’s performance depends on a variety of factors, including the number of IPOs the Fund invests in relative to the size of the Fund, and whether and to what extent a security purchased in an IPO appreciates or depreciates in value. When the Fund’s asset base is small, a significant portion of the Fund’s performance could be attributable to investments in IPOs because such investments would have a magnified impact on the Fund. As the Fund’s assets grow, the effect of the Fund’s investments in IPOs on the Fund’s performance probably will decline, which could reduce the Fund’s performance.

- **REIT Investment Risk:** Investments in REITs involve unique risks. REITs may have limited financial resources, may trade less frequently and in limited volume, and may be more volatile than other securities. REITs may be affected by changes in the value of their underlying properties or mortgages or by defaults by their borrowers or tenants. Furthermore, these entities depend upon specialized management skills, have limited diversification and are, therefore, subject to risks inherent in financing a limited number of projects. In addition, the performance of a REIT may be affected by changes in the tax laws or by its failure to qualify for tax-free pass-through of income.
- **Preferred Securities Risk:** Preferred securities may pay fixed or adjustable rates of return and are subject to many of the risks associated with debt securities (e.g., interest rate risk, call risk and extension risk). In addition, preferred securities are subject to issuer-specific and market risks applicable generally to equity securities. Because many preferred securities allow the issuer to convert their preferred security into common stock, preferred securities are often sensitive to declining common stock values. A company's preferred securities generally pay dividends only after the company makes required payments to holders of its bonds and other debt. For this reason, the value of preferred securities will usually react more strongly than bonds and other debt to actual or perceived changes in the company's financial condition or prospects. Preferred securities of smaller companies may be more vulnerable to adverse developments than preferred stock of larger companies.
- **Cybersecurity Risk:** With the increased use of technologies such as the Internet to conduct business, the Fund is susceptible to operational, information security, and related risks. Cyber incidents affecting the Fund or its service providers may cause disruptions and impact business operations, potentially resulting in financial losses, interference with the Fund's ability to calculate its net asset value ("NAV"), impediments to trading, the inability of shareholders to transact business, violations of applicable privacy and other laws, regulatory fines, penalties, reputational damage, reimbursement or other compensation costs, or additional compliance costs.
- **Portfolio Turnover Risk:** The Fund periodically engages in active and frequent trading, resulting in high portfolio turnover. The higher the Fund's portfolio turnover rate in a year, the greater the trading costs and the greater the chance of a shareholder receiving distributions of taxable gains in the year.
- **Liquidity Risk:** Certain securities may be difficult or impossible to sell at the time and the price that the Fund would like. Securities of small-cap companies may trade less frequently and in smaller volumes than more widely held securities. The values of these securities may fluctuate more sharply than those of other securities, and the Fund may experience some difficulty in establishing or closing out positions in these securities at prevailing market prices.
- **Other Investment Companies Risk:** You will indirectly bear fees and expenses charged by underlying investment companies in addition to the Fund's direct fees and expenses. As a result, your cost of investing in the Fund will be higher than the cost of investing directly in the underlying investment company shares.
- **ETF Risk:** When the Fund invests in ETFs, it will bear additional expenses based on its pro rata share of the ETF's operating expenses, including the potential duplication of management fees. The risk of owning an ETF generally reflects the risks of owning the underlying investments the ETF holds. The Fund also will incur brokerage costs when it purchases and sells ETFs. ETFs may trade at a discount or premium to net asset value.
- **New Fund Risk:** As a new fund, there can be no assurance that the Fund will grow or maintain an economically viable size.
- **Operational Risk:** Operational risks include human error, changes in personnel, system changes, faults in communication, and failures in systems, technology, or processes. Various operational events or circumstances are outside the Adviser's control, including instances at third parties. The Fund and the Adviser seek to reduce these operational risks through controls and procedures. However, these measures do not address every possible risk and may be inadequate to address these risks.

### ***PERFORMANCE INFORMATION***

The Fund is new and therefore does not have a performance history for a full calendar year. In the future, performance information for the Fund will be presented in this section. Updated performance information is also available on the Fund's website at [www.hoodrivercapital.com](http://www.hoodrivercapital.com) or by calling (800) 497-2960.

### ***INVESTMENT ADVISER***

Hood River Capital Management LLC

## ***PORTFOLIO MANAGERS***

### **Brian P. Smoluch, CFA**

Portfolio Manager of the Fund, is responsible for the day-to-day management of the Fund's portfolio and has managed the Fund since September 2021.

### **David G. Swank, CFA**

Portfolio Manager of the Fund, is responsible for the day-to-day management of the Fund's portfolio and has managed the Fund since September 2021.

### **Lance Cannon, CFA**

Portfolio Manager of the Fund, is responsible for the day-to-day management of the Fund's portfolio and has managed the Fund since September 2021.

### **Rohan Kumar**

Portfolio Manager of the Fund, is responsible for the day-to-day management of the Fund's portfolio and has managed the Fund since September 2021.

## ***PURCHASE AND SALE OF FUND SHARES***

The minimum initial investment for Institutional Shares of the Fund is \$25,000 and the minimum initial investment for Investor Shares of the Fund is \$1,000. There is no minimum initial investment for Retirement Shares of the Fund. Additional investments may be made in any amount. Investor Shares and Retirement Shares are not currently offered for sale. The Adviser may reduce or waive the minimum.

A shareholder may sell (redeem) shares on any Business Day. Shares may be redeemed in one of the following ways:

### **By Regular Mail- Send A Written Request To:**

Hood River International Opportunity Fund  
c/o U.S. Bank Global Fund Services  
615 East Michigan Street, 3<sup>rd</sup> Floor  
Milwaukee, WI 53202

### **By Wire:**

Call the Fund at (800) 497-2960

## ***TAX INFORMATION***

The Fund's distributions will be taxed as ordinary income or capital gains, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or an individual retirement account ("IRA"). You may be taxed later upon withdrawal of monies from such tax-deferred or other tax-advantaged arrangements.

## ***PAYMENTS TO BROKER-DEALERS AND OTHER FINANCIAL INTERMEDIARIES***

If you purchase Fund shares through a broker-dealer or other financial intermediary (such as a bank), the Fund, the Adviser and their related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create conflicts of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.

## **ADDITIONAL INFORMATION ABOUT THE FUND**

### ***INVESTMENT OBJECTIVE***

The Fund seeks long-term growth of capital. The Fund's investment objective may be changed without the approval of the Fund's shareholders upon Board approval and 60 days' prior written notice to shareholders.

### ***ADDITIONAL INFORMATION ABOUT PRINCIPAL INVESTMENT STRATEGIES***

The Fund will invest primarily in common stocks and other equity securities of small-capitalization companies that are located in non-U.S. developed or emerging markets countries. Equity securities in which the Fund invests includes common stock, preferred stock, REITs, rights, and warrants. Preferred stock generally refers to a unit of ownership in a company (like common stock) that has preference over common stock in the payment of dividends and in the event of a company's liquidation. Unlike common stocks, preferred stocks are generally not entitled to vote on corporate matters. A right is a privilege granted to existing shareholders of a corporation to subscribe to shares of a new issue of common stock before it is issued. Warrants are securities that are usually issued together with a debt security or preferred stock and that give the holder the right to buy proportionate amount of common stock at a specified price.

In selecting securities for the Fund, Hood River seeks to invest in common stocks that are judged by Hood River to have strong growth characteristics or to be undervalued in the marketplace relative to underlying profitability. Under normal market conditions, the Fund will invest in issuers located in at least ten of the countries included in the Morgan Stanley Capital International (MSCI) AC (All Country) World Index ex USA Small Cap Index.

The Fund may invest a significant portion of its assets (up to 50% under normal market conditions) at the time of purchase in securities of companies located in emerging markets countries. Emerging markets are those countries designated by the MSCI Emerging Markets Index. The Fund may also invest in pre-emerging markets, also known as frontier markets. The Fund may invest a large portion of its assets in a particular region or market, including Japan and European countries.

In selecting securities, the research process utilized by Hood River begins by screening a universe of stocks with market capitalizations of generally less than \$5 billion which exhibit strong growth characteristics and attractive valuation relative to underlying profitability. In order to identify companies with such attributes, Hood River conducts fundamental analysis through discussions with management, customers, suppliers, competitors, and industry experts to forecast financial metrics for a potential investment target. The Fund's portfolio will consist of companies for which Hood River has conviction in its own proprietary estimates and believes that they are significantly higher than consensus estimates.

The Fund is expected to maintain a portfolio of approximately 80-85 stocks, which is constructed with the overall goal of mitigating both issuer-specific and portfolio risk. Idiosyncratic risk is reduced by obtaining several independent data points that support Hood River's financial model. Portfolio risk is addressed through position and sector sizing limits. The Fund is expected to have significant exposure to the health care and information technology sectors. However, the actual amount of the portfolio holdings may vary due to market conditions.

The frequency of Fund transactions and the Fund's turnover rate will vary from year to year depending on the market. A higher turnover rate increases transaction costs (*i.e.*, brokerage commissions) and may create adverse tax consequences for the Fund's shareholders. With frequent trading activity, a greater proportion of any distributions paid out by the Fund will be characterized as short-term capital gain, which is taxed at higher rates than long-term capital gains and which may decrease your after-tax return. Such factors may have the effect of lowering the Fund's NAV and overall Fund performance.

The Fund may also invest in ADRs, GDRs, EDRs, and IDRs. The Fund may also invest in preferred stock, REITs, rights, and warrants. The Fund may purchase securities of companies engaged in IPOs.

The Fund may invest in the securities of other investment companies, including ETFs, to the extent permitted by the 1940 Act and the rules thereunder. As a shareholder in an investment company, the Fund would bear its pro rata portion of the investment company's expenses, including advisory fees, in addition to its own expenses. Although the 1940 Act restricts investments by registered investment companies in the securities of other investment companies, including ETFs, registered investment companies are permitted to invest in investment companies, including ETFs, beyond the limits set forth in Section 12(d)(1) of the 1940 Act in reliance on Rule 12(d)(1)-4 which imposes limits on control and voting on investing funds, among other requirements.

At the time of purchase, individual stock holdings may represent up to 5% of the Fund's total assets. However, due to market price fluctuations, individual stock holdings may exceed 5% of the Fund's total assets. The Fund may overweight or underweight certain industries and sectors as compared to its benchmark index, the MSCI ACWI ex USA Small Cap Index, based on Hood River's opinion of the relative attractiveness of companies within those industries and sectors. The Fund may not invest in more than 10% of the outstanding voting shares of a company.

In order to respond to adverse market, economic, political or other conditions, the Fund may assume a temporary defensive position and invest without limit in commercial paper and other money market instruments that are rated investment grade by a nationally recognized statistical rating organization, or determined by Hood River to be of comparable quality. The result of this action may be that the Fund will be unable to achieve its investment objective.

The Fund also may use other strategies and engage in other investment practices, which are more fully described in the Statement of Additional Information (“SAI”).

#### ***ADDITIONAL PRINCIPAL RISK INFORMATION***

The following is a list of certain principal risks that may apply to your investment in the Fund. Further information about investment risks is available in the Fund’s SAI.

- **General Market Risk; Recent Market Events.** The market value of a security may move up or down, sometimes rapidly and unpredictably. These fluctuations may cause a security to be worth less than the price originally paid for it, or less than it was worth at an earlier time. Market risk may affect a single issuer, industry, sector of the economy or the market as a whole. U.S. and international markets have experienced volatility in recent months and years due to a number of economic, political and global macro factors, including the impact of the coronavirus (COVID-19) global pandemic, which resulted in a public health crisis, business interruptions, growth concerns in the U.S. and overseas, travel restrictions, changed social behaviors, rising inflation and reduced consumer spending. While several countries, including the U.S., have begun to lift public health restrictions in efforts to reopen their respective economies, the outbreak of the Delta variant has led to the renewal of health mandates by local governments and businesses, reduced hiring efforts by employers, event cancellations and additional travel restrictions, supply chain shortages, cessation of return-to-office plans and an overall economic slowdown. While U.S. and global economies are recovering from the effects of COVID-19, the recovery is proceeding at slower than expected rates and may last for a prolonged period of time. Uncertainties regarding interest rates, political events, rising government debt in the U.S. and trade tensions have also contributed to market volatility.

Global economies and financial markets are increasingly interconnected, which increases the possibility that conditions in one country or region might adversely impact issuers in a different country or region. In particular, a rise in protectionist trade policies, slowing global economic growth, risks associated with epidemic and pandemic diseases, risks associated with the United Kingdom’s departure from the European Union, the risk of trade disputes, and the possibility of changes to some international trade agreements, could affect the economies of many nations, including the United States, in ways that cannot necessarily be foreseen at the present time. Continuing market volatility as a result of recent market conditions or other events may have adverse effects on your account. The Adviser will monitor developments and seek to manage the Fund in a manner consistent with achieving the Fund’s investment objective, but there can be no assurance that it will be successful in doing so.

- **Equity Risk:** The Fund’s equity investments may involve substantial risks and may be subject to wide and sudden fluctuations in market value, with a resulting fluctuation in the amount of profits and losses. Equity prices are directly affected by issuer-specific events, as well as general market conditions. Equity investments are subordinate to the claims of an issuer’s creditors and, to the extent such securities are common securities, preferred stockholders. Dividends customarily paid to equity holders can be suspended or cancelled at any time. In addition, in many countries, investing in common stocks is subject to heightened regulatory and self-regulatory scrutiny as compared to investing in debt or other financial instruments. For the foregoing reasons, investments in equity securities can be highly speculative and carry a substantial risk of loss of principal.
- **Small Company Risk:** Companies in which the Fund invests may be more vulnerable than larger companies to adverse business or economic developments. Small-cap companies may also have limited product lines, markets, or financial resources, may be dependent on relatively small or inexperienced management groups, and may operate in industries characterized by rapid technological obsolescence. Securities of such companies may be less liquid, more volatile and more difficult to value than securities of larger companies and therefore may involve greater risk than investing in larger companies.
- **Growth Investing Risk:** An investment in a growth-oriented fund may be more volatile than the rest of the U.S. market as a whole. If the investment adviser’s assessment of a company’s prospects for earnings growth or how other investors will value the company’s earnings growth is incorrect, the process of the stock may fail to reach the value that the adviser has placed on it. Growth stock prices tend to fluctuate more dramatically than the overall stock market.

- **Value Investing Risk:** The Fund may be wrong in its assessment of a company's value or the market may not recognize improving fundamentals as quickly as the Fund anticipated. In such cases, the stock may not reach the price that reflects the intrinsic value of the company. There are periods when the value investing style falls out of favor with investors and in such periods the Fund may not perform as well as other mutual funds investing in common stocks.
- **Management Risk:** The Fund relies on the Adviser's ability to pursue the Fund's investment objective. The ability of the Fund to meet its investment objective is directly related to the Adviser's investment strategies for the Fund. The value of your investment in the Fund may vary with the effectiveness of the Adviser's research, analysis and asset allocation among portfolio securities. If the Adviser's investment strategies do not produce the expected results, your investment could be diminished or even lost.
- **Sector Emphasis Risk:** Although Hood River selects stocks based on their individual merits, some economic sectors will represent a larger portion of the Fund's overall investment portfolio than other sectors. Potential negative market or economic developments affecting one of the larger sectors could have a greater impact on the Fund than on a fund with fewer holdings in that sector.
  - *Health Care Sector Risk:* To the extent that the Fund invests a significant portion of its assets in the health care sector, the Fund will be sensitive to risks affecting health care companies. Companies in the health care sector are subject to government regulation and may be affected by reimbursement rates, government approval of products and services, patent protection and research and development costs.
  - *Information Technology Sector Risk:* Market or economic factors impacting information technology companies and companies that rely heavily on technological advances could have a significant effect on the value of the Fund's investments. The value of stocks of information technology companies and companies that rely heavily on technology is particularly vulnerable to rapid changes in technology product cycles, rapid product obsolescence, government regulation and competition, both domestically and internationally, including competition from foreign competitors with lower production costs. Stocks of information technology companies and companies that rely heavily on technology, especially those of smaller, less-seasoned companies, tend to be more volatile than the overall market. Information technology companies are heavily dependent on patent and intellectual property rights, the loss or impairment of which may adversely affect profitability.
- **Valuation Risk:** The sale price a Fund could receive for any particular portfolio investment may differ from the Fund's valuation of the investment, particularly for securities that trade in thin or volatile markets or that are valued using a fair value methodology. Investors who purchase or redeem Fund shares on days when a Fund is holding fair-valued securities may receive fewer or more shares or lower or higher redemption proceeds than they would have received if the Fund had not fair-valued the security or had used a different valuation methodology. When pricing foreign equity securities, the Fund will generally use an evaluated adjustment factor provided by a fair value pricing service and the prices of such securities, as modified by the adjustment factor, may be different from the prices of which such securities are actually bought and sold.
- **Foreign Security Risk:** Foreign securities investments present a number of economic, financial and political considerations not typically associated with investments in domestic securities that could unfavorably affect your account's performance. Currency exchange rates and regulations may cause fluctuation in the value of foreign securities. The Fund's income from foreign issuers may be subject to non-U.S. withholding taxes. The Fund may also be subject to taxes on trading profits or on transfer of securities in some countries. The costs of buying and selling foreign securities, including brokerage, tax and custody costs are generally higher than those for domestic transactions. Foreign securities are subject to different regulatory environments than in the United States and, compared to the United States, there may be a lack of uniform accounting, auditing and financial reporting standards, less volume and liquidity and more volatility, less public information, and less regulation of foreign issuers. Countries have been known to expropriate or nationalize assets, and foreign investments may be subject to political, financial or social instability or adverse diplomatic developments. There may be difficulties in obtaining service of process on foreign issuers and difficulties in enforcing judgments with respect to claims under U.S. securities laws against such issuers. Favorable or unfavorable differences between U.S. and foreign economies could affect foreign securities values. The U.S. Government has, in the past, discouraged certain foreign investments by U.S. investors through taxation or other restrictions and it is possible that such restrictions could be imposed again.
- **Emerging and Frontier Markets Risk:** In addition to developed markets, the Fund may invest in emerging and frontier markets. In addition to the risks of foreign securities in general, countries in emerging and frontier markets

are generally more volatile and can have relatively unstable governments, social and legal systems that do not protect shareholders, economies based on only a few industries and securities markets that trade a small number of issues. Taxation, restrictions on foreign investment and on currency convertibility and repatriation, currency fluctuations and other developments in laws and regulations of emerging and frontier markets could result in loss to a Fund. Frontier market countries generally have smaller economies and even less developed capital markets than emerging markets. As a result, the risks of investing in emerging markets are magnified in frontier markets, and include potential for extreme price volatility and illiquidity; government ownership or control of parts of private sector and of certain companies; trade barriers, exchange controls, managed adjustments in relative currency values and other protectionist measures; and relatively new and unsettled securities laws.

- **Foreign Currency Risk:** The Fund may invest in securities or other instruments denominated in non-U.S. currencies. Such investments involve currency risks, including unfavorable currency exchange rate developments and political or governmental intervention in currency trading or valuation. These risks are higher in emerging markets. Because the Fund will determine its net asset value (“NAV”) in U.S. dollars, with respect to trading on non-U.S. markets, it is subject to the risk of fluctuation in the exchange rate between the local currency and dollars and to the possibility of exchange controls.
- **Geographic Investment Risk:** To the extent that the Fund invests a significant portion of its assets in the securities of companies of a single country or region, it is more likely to be impacted by events or conditions affecting that country or region. For example, political and economic conditions and changes in regulatory, tax, or economic policy in a country could significantly affect the market in that country and in surrounding or related countries and have a negative impact on the Fund’s performance. Currency developments or restrictions, political and social instability, and changing economic conditions have resulted in significant market volatility.
  - *Risks Related to Investing in Japan:* The Japanese economy may be subject to considerable degrees of economic, political and social instability, which could have a negative impact on Japanese securities. Since the year 2000, Japan’s economic growth rate has remained relatively low and it may remain low in the future. In addition, Japan is subject to the risk of natural disasters, such as earthquakes, volcanoes, typhoons and tsunamis. Additionally, decreasing U.S. imports, new trade regulations, changes in the U.S. dollar exchange rates, a recession in the United States or continued increases in foreclosure rates may have an adverse impact on the economy of Japan. Japan also has few natural resources, and any fluctuation or shortage in the commodity markets could have a negative impact on Japanese securities.
  - *Risks Related to Investing in Europe:* The economies of Europe are highly dependent on each other, both as key trading partners and as in many cases as fellow members maintaining the euro. Reduction in trading activity among European countries may cause an adverse impact on each nation’s individual economies. European countries that are part of the Economic and Monetary Union of the EU are required to comply with restrictions on inflation rates, deficits, interest rates, debt levels, and fiscal and monetary controls, each of which may significantly affect every country in Europe. Decreasing imports or exports, changes in governmental or EU regulations on trade, changes in the exchange rate of the euro, the default or threat of default by an EU member country on its sovereign debt, and recessions in an EU member country may have a significant adverse effect on the economies of EU member countries and their trading partners.

The European financial markets have experienced volatility and adverse trends due to concerns about rising government debt levels in many European countries, which have grown in the past year as governments borrowed to combat the toll of the COVID-19 pandemic on world economies. These events have adversely affected the exchange rate of the euro. For some countries, the ability to repay sovereign debt is in question, and default is possible, which could affect their ability to borrow in the future. There is the possibility of contagion that could occur if one country defaults on its debt, and that a default in one country could trigger declines and possible additional defaults in other countries in the region.

Responses to the financial problems by European governments, central banks and others, including austerity measures and reforms, may not work, may result in social unrest and may limit future growth and economic recovery or have other unintended consequences. Further defaults or restructurings by governments and other entities of their debt could have additional adverse effects on economies, financial markets, and asset valuations around the world. In addition, one or more countries may abandon the euro, the common currency of the EU, and/or withdraw from the EU alongside the UK, as discussed below. The impact of these actions, especially if they occur in a disorderly fashion, is not clear but could be significant and far-reaching.

The UK formally exited from the EU on January 31, 2020 (known as “Brexit”). Although the UK and EU have made a trade agreement that was entered into force on May 1, 2021, certain post-EU arrangements were outside the scope of the negotiating mandate and remain unresolved and subject to further negotiation and agreement. There is significant market uncertainty regarding Brexit’s ramifications, and the range of possible political, regulatory, economic and market outcomes are difficult to predict. The uncertainty surrounding the UK’s economy, and its legal, political, and economic relationship with the remaining member states of the EU, may continue to be a source of instability and cause considerable disruption in securities markets, including increased volatility and illiquidity, as well as currency fluctuations in the British pound’s exchange rate against the U.S. dollar.

- **Depository Receipts Risk:** The Fund may invest in ADRs, EDRs, GDRs and IDRs, which are securities representing securities of foreign issuers. Generally, ADRs are denominated in U.S. dollars and are designed for use in the U.S. securities markets. EDRs and GDRs represent a bank certificate issued in more than one country for shares in a foreign company. An IDR is issued by a depository bank representing ownership of stock of a foreign company held by the bank in trust. Depository receipts are receipts typically issued by a U.S. bank or trust company evidencing ownership of the underlying securities issued by a foreign corporation. The Fund intends to purchase “sponsored” ADRs, which are ADRs that are issued jointly by the issuer of the underlying security and a depository. Depository receipts may result in a withholding tax by the foreign country of source which will have the effect of reducing the income distributable to shareholders. For purposes of the Fund’s investment policies, depository receipts are deemed to have the same classification as the underlying securities they represent. For example, a depository receipt representing ownership of common stock will be treated as common stock.
- **IPO Risk:** The Fund may purchase securities of companies engaged in IPOs. The price of securities purchased in IPOs can be very volatile. The Fund’s investments in IPO shares may include the securities of “unseasoned” companies (companies with less than three years of continuous operations), which present risks considerably greater than common stocks of more established companies. These companies may be involved in new and evolving businesses and may be vulnerable to competition and changes in technology, markets and economic conditions. They may be more dependent on key managers and third parties and may have limited product lines. The effect of IPO investments on the Fund’s performance depends on a variety of factors, including the number of IPOs the Fund invests in relative to the size of the Fund, and whether and to what extent a security purchased in an IPO appreciates or depreciates in value. When the Fund’s asset base is small, a significant portion of the Fund’s performance could be attributable to investments in IPOs because such investments would have a magnified impact on the Fund. As the Fund’s assets grow, the effect of the Fund’s investments in IPOs on the Fund’s performance probably will decline, which could reduce the Fund’s performance.
- **REIT Investment Risk:** Investments in REITs involve unique risks. REITs may have limited financial resources, may trade less frequently and in limited volume, and may be more volatile than other securities. In addition, to the extent the Fund holds interests in REITs, it is expected that investors in the Fund will bear two layers of asset-based management fees and expenses (directly at the Fund level and indirectly at the REIT level). The risks of investing in REITs include certain risks associated with the direct ownership of real estate and the real estate industry in general. These include risks related to general, regional and local economic conditions; fluctuations in interest rates and property tax rates; shifts in zoning laws, environmental regulations and other governmental action such as the exercise of eminent domain; cash flow dependency; increased operating expenses; lack of availability of mortgage funds; losses due to natural disasters; overbuilding; losses due to casualty or condemnation; changes in property values and rental rates; and other factors.

In addition to these risks, residential/diversified REITs and commercial equity REITs may be affected by changes in the value of the underlying property owned by the trusts, while mortgage REITs may be affected by the quality of any credit extended. Further, REITs are dependent upon management skills and generally may not be diversified. REITs are also subject to heavy cash flow dependency, defaults by borrowers and self-liquidation. In addition, REITs could possibly fail to qualify for the beneficial tax treatment available to REITs under the U.S. Internal Revenue Code of 1986, as amended (the “Code”), or to maintain their exemptions from registration under the Investment Company Act of 1940, as amended (the “1940 Act”). The Fund expects that dividends received from a REIT and distributed to Fund shareholders generally will be taxable to the shareholder as ordinary income. The above factors may also adversely affect a borrower’s or a lessee’s ability to meet its obligations to the REIT. In the event of a default by a borrower or lessee, the REIT may experience delays in enforcing its rights as a mortgagee or lessor and may incur substantial costs associated with protecting investments.

- **Preferred Securities Risk.** Preferred securities may pay fixed or adjustable rates of return and are subject to many of the risks associated with debt securities (*e.g.*, interest rate risk, call risk and extension risk). In addition, preferred securities are subject to issuer-specific and market risks applicable generally to equity securities. Because many preferred securities allow the issuer to convert their preferred security into common stock, preferred securities are often sensitive to declining common stock values. A company's preferred securities generally pay dividends only after the company makes required payments to holders of its bonds and other debt. For this reason, the value of preferred securities will usually react more strongly than bonds and other debt to actual or perceived changes in the company's financial condition or prospects. Preferred securities of smaller companies may be more vulnerable to adverse developments than preferred stock of larger companies.
- **Cybersecurity Risks.** With the increased use of technologies such as the Internet to conduct business, the Fund is susceptible to operational, information security, and related risks. In general, cyber incidents can result from deliberate attacks or unintentional events. Cyber attacks include, but are not limited to, gaining unauthorized access to digital systems (*e.g.*, through "hacking" or malicious software coding) for purposes of misappropriating assets or sensitive information, corrupting data, or causing operational disruption. Cyber attacks may also be carried out in a manner that does not require gaining unauthorized access, such as causing denial-of-service attacks on websites (*i.e.*, efforts to make network services unavailable to intended users). Cyber incidents affecting the Fund or its service providers may cause disruptions and impact business operations, potentially resulting in financial losses, interference with the Fund's ability to calculate its NAV, impediments to trading, the inability of shareholders to transact business, violations of applicable privacy and other laws, regulatory fines, penalties, reputational damage, reimbursement or other compensation costs, or additional compliance costs. Similar adverse consequences could result from cyber incidents affecting issuers of securities in which the Fund invests, counterparties with which the Fund engages in transactions, governmental and other regulatory authorities, exchange and other financial market operators, banks, brokers, dealers, insurance companies and other financial institutions (including financial intermediaries and service providers for shareholders) and other parties. In addition, substantial costs may be incurred in order to prevent any cyber incidents in the future. While the Fund's service providers have established business continuity plans in the event of, and risk management systems to prevent, such cyber incidents, there are inherent limitations in such plans and systems including the possibility that certain risks have not been identified. Furthermore, the Fund cannot control the cyber security plans and systems put in place by its service providers or any other third parties whose operations may affect the Fund or its shareholders. As a result, the Fund and its shareholders could be negatively impacted.
- **Portfolio Turnover Risk:** If the Fund frequently trades its portfolio securities, the Fund will incur higher brokerage commissions and transaction costs, which could lower the Fund's performance. In addition to lower performance, high portfolio turnover could result in a higher amount of taxable capital gains, including short-term capital gains taxable to shareholders at ordinary income tax rates.
- **Liquidity Risk:** The risk that certain securities may be difficult or impossible to sell at the time and the price that the seller would like. While the markets in securities of small companies have grown rapidly in recent years, such securities may trade less frequently and in smaller volumes than more widely held securities. The values of these securities may fluctuate more sharply than those of other securities, and the Fund may experience some difficulty in establishing or closing out positions in these securities at prevailing market prices. There may be less publicly available information about the issuers of these securities or less market interest in such securities than in the case of larger companies, and it may take a longer period of time for the prices of such securities to reflect the full value of their issuers' underlying earnings potential or assets.
- **Other Investment Companies Risk:** The Fund may invest in shares of other investment companies as a means to pursue its investment objective. As a result of this policy, your cost of investing in the Fund will be higher than the cost of investing directly in the underlying fund shares. You will indirectly bear fees and expenses charged by the underlying funds in addition to the Fund's direct fees and expenses. Furthermore, the use of this strategy could affect the timing, amount and character of distributions to you and therefore may increase the amount of taxes payable by you.
- **ETF Risk:** When the Fund invests in an ETF you will indirectly bear fees and expenses charged by the underlying ETF in addition to the Fund's direct fees and expenses and, as a result, your cost of investing in the Fund will generally be higher than the cost of investing directly in the underlying ETF's shares. An investor may invest directly in an ETF, and thereby avoid paying duplicative fees. An investment in an ETF generally presents the same primary risks as an investment in a conventional mutual fund ( *i.e.* , one that is not exchange traded) that has the same investment objective, strategies and policies. The price of an ETF can fluctuate within a wide range, and the

Fund could lose money when investing in an ETF if the prices of the securities owned by the ETF go down. In addition, ETFs are subject to the following risks that do not apply to conventional mutual funds: (1) the market price of the ETF's shares may trade at a discount to their NAV; (2) an active trading market for an ETF's shares may not develop or be maintained; or (3) trading of an ETF's shares may be halted if the listing exchange's officials deem such action appropriate, the shares are de-listed from the exchange, or the activation of market-wide "circuit breakers" (which are tied to large decreases in stock prices) halts stock trading generally. Additionally, ETFs have management and other fees, which increase their cost.

- **New Fund Risk:** There can be no assurance that the Fund will grow to or maintain an economically viable size, in which case the Board of Trustees may determine to liquidate the Fund. Liquidation of the Fund can be initiated without shareholder approval by the Board of Trustees if it determines that liquidation is in the best interest of shareholders. As a result, the timing of the Fund's liquidation may not be favorable.
- **Operational Risk:** Operational risks include human error, changes in personnel, system changes, faults in communication, and failures in systems, technology, or processes. Various operational events or circumstances are outside the Adviser's control, including instances at third parties. The Fund and the Adviser seek to reduce these operational risks through controls and procedures. However, these measures do not address every possible risk and may be inadequate to address these risks.

### ***DISCLOSURE OF PORTFOLIO HOLDINGS***

A description of the Fund's policies and procedures with respect to the disclosure of the Fund's portfolio holdings is available in the SAI. Disclosure of the Fund's holdings is required to be made quarterly within 60 days of the end of each fiscal quarter in the annual and semi-annual reports to Fund shareholders and in other regulatory filings. The annual and semi-annual reports to Fund shareholders are available free of charge by contacting the Fund, c/o U.S. Bank Global Fund Services, P.O. Box 701, Milwaukee, WI 53201-0701 or calling (800) 497-2960.

### ***VOLUNTARY FEE WAIVERS AND/OR EXPENSE REIMBURSEMENTS***

Service providers to the Fund may, from time to time, voluntarily waive all or a portion of any fees to which they are entitled and/or reimburse certain expenses as they may determine from time to time. The Fund's service providers may discontinue or modify these voluntary actions at any time without notice. The Fund's performance will reflect the voluntary waiver of fees and/or the reimbursement of expenses, if any. Without these waivers and/or expense reimbursements, performance would be less favorable.

## **MANAGEMENT OF THE FUND**

### ***INVESTMENT ADVISER***

Hood River is a registered investment adviser located at 2373 PGA Boulevard, Suite 200, Palm Beach Gardens, Florida 33410, and serves as the adviser to the Fund subject to the supervision of the Board of the Trust. Hood River was established in January 2013 and offers investment advisory services to mutual funds, institutional accounts and individual investors. As of June 30, 2021, Hood River had assets under management of approximately \$3.39 billion.

### ***ADVISORY FEE***

The Fund will pay Hood River a monthly advisory fee at the annual rate of 1.30% of the Fund's average daily net assets.

Hood River has contractually agreed to limit the total annual fund operating expenses of the Fund, excluding taxes, Rule 12b-1 fees, shareholder servicing fees and certain other expenses, to 1.40%. The waivers and reimbursements will remain in effect through at least September 28, 2024 unless sooner terminated by mutual agreement of the Board and Hood River.

The basis for the Board of Trustees' approval of the Fund's Investment Advisory Agreement for the Fund will be available in the Fund's first annual or semi-annual report to shareholders.

The Fund, as a series of the Trust, does not hold itself out as related to any other series of the Trust for purposes of investment and investor services, nor does it share the same investment advisor with any other series of the Trust, with the exception of the Hood River Small-Cap Growth Fund (together with the Fund, the "Hood River Fund Family").

### ***PORTFOLIO MANAGERS OF THE FUND***

The business experience and educational background of the Fund's portfolio managers is provided below. The SAI provides additional information about the portfolio managers' compensation, other accounts managed by the portfolio managers and the portfolio managers' ownership of securities in the Fund.

The day-to-day management of the Fund is the responsibility of Hood River's International Opportunity Investment Team (the "Investment Team"), which includes the individuals listed below. The Investment Team meets regularly to make investment decisions for the Fund. As part of the security selection process, two portfolio managers may elect to reduce a position size down to 50 basis points of the Fund's net assets to manage risk, subject to limits set by the Investment Team.

**Brian P. Smoluch, CFA**

Mr. Smoluch co-founded Hood River and has 24 years of investment management experience. Before starting Hood River in 2013, Mr. Smoluch spent 10 years at Roxbury Capital Management, LLC managing the Small-Cap Growth strategy. Prior to Roxbury, he was a portfolio manager and equity analyst on the small/mid-cap investment team at Columbia Management Group. Previously, he was a financial analyst at Salomon Brothers investment banking in New York. Mr. Smoluch has a B.S. with Distinction from the University of Virginia and an M.B.A. from Harvard University.

**David G. Swank, CFA**

Mr. Swank co-founded Hood River and has 24 years of investment management experience. Before starting Hood River in 2013, Mr. Swank spent three years at Roxbury Capital Management, LLC managing the Small-Cap Growth strategy. Prior to Roxbury, he worked for GMT Capital Corporation as vice president, healthcare sector head of a \$4 billion long/short equity hedge fund. Prior to joining GMT Capital, he was with Morgan Stanley Investment Management. He began his investment career as a research associate in 1994 with Furman Selz and later worked at Montgomery Securities. Mr. Swank has a B.S. with Distinction from the University of Virginia and an M.B.A. from the Tuck School of Business at Dartmouth College.

**Lance Cannon, CFA**

Mr. Cannon has 13 years of investment management experience. Mr. Cannon served as an analyst at Hood River since 2018 and Portfolio Manager since 2021. Before joining Hood River in 2018, Mr. Cannon spent three years at USDR Investment Management as a senior analyst. Prior to USDR Investment Management, he worked for TCW Group and Kayne Anderson Rudnick Investment Firm performing equity research. Mr. Cannon began his investment career as a managing director at GPS Capital Markets, Inc. Lance has a B.S. in business management, with an emphasis in finance, from Brigham Young University and an M.B.A. from the Anderson School of Management at the University of California, Los Angeles.

**Rohan Kumar**

Mr. Kumar has 10 years of investment management experience. Mr. Kumar served as an analyst at Hood River since 2015 and a Portfolio Manager since 2021. Before joining Hood River in 2015, Mr. Kumar two years at Hawkeye Capital Management as a research analyst. He previously was an analyst at Reliance Capital and began his career as a Component Design Engineer at Intel. Mr. Kumar has a Bachelor of Technology in electrical engineering from the Indian Institute of Technology at Kharagpur, a Masters degree from Harvard's Kennedy School, and his M.B.A. from The Wharton School at the University of Pennsylvania.

## **DISTRIBUTION AND SERVICING OF SHARES**

### ***DISTRIBUTOR***

The Trust has entered into a Distribution Agreement with Quasar Distributors, LLC, (the "Distributor"), a subsidiary of Foreside Financial Group, LLC, located at 111 East Kilbourn Avenue, Suite 2200, Milwaukee, Wisconsin 53202, pursuant to which the Distributor acts as the Fund's principal underwriter, provides certain administration services and promotes and arranges for the sale of Fund shares. The offering of Fund shares is continuous, and the Distributor distributes Fund shares on a best efforts basis. The Distributor is not obligated to sell any certain number of shares of the Fund. The Distributor is a registered broker-dealer and member of FINRA.

### ***RULE 12B-1 PLAN***

The Fund has adopted a distribution and shareholder servicing plan pursuant to Rule 12b-1 under the 1940 Act (the "Rule 12b-1 Plan") on behalf of its Investor Shares to pay distribution fees for the sale and distribution of Fund shares. Investor Shares are not currently offered. Under the Rule 12b-1 Plan, Investor Shares pay the Distributor and other authorized recipients a Rule 12b-1 fee at an annual rate of up to 0.25% of their average daily net asset value. The Distributor uses this Rule 12b-1 fee primarily to finance activities that promote the sale of Investor Shares. Such activities include, but are not necessarily limited to, compensating brokers, dealers, financial intermediaries and sales personnel for distribution and shareholder services, printing and mailing prospectuses to persons other than current shareholders, printing and mailing sales literature, and advertising. Because Rule 12b-1 fees are ongoing, over time these fees will increase the cost of your investment and may cost you more than paying other types of sales charges. The Distributor or the Fund may select financial institutions, such as banks, fiduciaries, custodians, investment advisers and broker-dealers, as agents to provide sales or administrative services for their clients or customers who beneficially own Investor Shares. Financial institutions will receive Rule 12b-1 fees from the Distributor based upon shares owned by their clients or customers.

## ***SHAREHOLDER SERVICING PLAN***

The Fund has implemented a Shareholder Servicing Plan (the “Shareholder Servicing Plan”) on behalf of its Institutional Shares and Investor Shares that allows the Fund to make payments to financial intermediaries and other service providers for Institutional and Investor shareholders in return for shareholder servicing and maintenance of Institutional and Investor shareholder accounts. Investor Shares are not currently offered. These shareholder servicing and maintenance fees may not exceed 0.10% per year of the Fund’s average daily net assets for Institutional Shares and Investor Shares, respectively, and may not be used to pay for any services in connection with the distribution and sale of Institutional Shares or Investor Shares.

## ***SALES AND MARKETING PROGRAMS***

Hood River and/or its affiliates may pay financial intermediaries for distribution, marketing, servicing, and sales support out of its profits or other sources available to it (and not an additional charge to the Fund). These payments may include amounts that are sometimes referred to as “revenue sharing” payments and are in addition to or in lieu of any amounts payable to financial intermediaries under the Fund’s Rule 12b-1 Plan or Shareholder Servicing Plan.

## ***DESCRIPTION OF CLASSES***

The Fund offers Institutional Shares in this Prospectus. The Fund has also established Investor Shares and Retirement Shares, which are not currently offered. The different classes represent investments in the same portfolio of securities, but the classes are subject to different expenses and may have different share prices as outlined below. Each class of shares has different expenses and distribution arrangements to provide for different investment needs. You should always discuss the suitability of your investment with your broker-dealer or financial adviser.

	<b>Institutional Shares</b>	<b>Investor Shares</b>	<b>Retirement Shares</b>
Distribution (Rule 12b-1) fees	None	0.25%	None
Shareholder Servicing fee	0.10%	0.10%	None

**Institutional Shares.** Institutional Shares pay lower annual expenses than Investor Shares. Institutional Shares are subject to a shareholder servicing fee not to exceed 0.10% of the average daily net assets of the Fund attributable to Institutional Shares, computed on an annual basis. Institutional Shares are offered only to certain institutional investors or through certain financial intermediary accounts or retirement plans, subject to the applicable investment minimums. Institutional Shares are available to the following:

- institutional investors;
- Individual Retirement Accounts (“IRAs”);
- certain financial institutions, endowments, foundations, government entities or corporations investing on their own behalf;
- existing Institutional class shareholders;
- Trustees of the Trust, former trustees of the Trust, employees of affiliates of the Fund and the Adviser and other individuals who are affiliated with the Fund (this also applies to any spouse, parents, children, siblings, grandparents, grandchildren and in-laws of those mentioned) and Adviser affiliate employee benefit plans; and
- wrap fee programs of certain broker-dealers (please consult your financial representative to determine if your wrap fee program is subject to additional or different conditions or fees).

**Investor Shares.** Investor Shares are subject to a Rule 12b-1 distribution fee of up to 0.25% of the average daily net assets of the Fund attributable to Investor Shares, and a shareholder servicing fee not to exceed 0.10% of the average daily net assets of the Fund attributable to Investor Shares, each computed on an annual basis. Investor Shares are not currently offered for sale.

**Retirement Shares.** Retirement Shares are offered for sale without the imposition of Rule 12b-1 or shareholder servicing fees. Retirement Shares are generally available only to certain retirement plans that trade on an omnibus level. Retirement Shares pay lower annual expenses than the Fund’s Institutional Shares and Investor Shares. Retirement Shares are not currently offered for sale.

Retirement Shares are available in certain retirement plans, including the following, provided that in each case the plan trades on an omnibus level:

- Section 401(a) and 457 plans;
- Section 403(b) custodial accounts;
- Section 401(k), profit sharing, money purchase pension and defined benefit plans; and
- Non-qualified deferred compensation plans.

## **SHAREHOLDER INFORMATION**

### ***PRICING OF SHARES***

The price of the Fund's shares is based on its NAV. The NAV per share of the Fund is determined as of the close of regular trading on the New York Stock Exchange ("Exchange") (generally, 4:00 p.m. Eastern Time) ("Market Close") on each day that the Exchange is open for business (each, a "Business Day"). The NAV is calculated by adding the value of all securities and other assets in the Fund, deducting its liabilities, and dividing the balance by the number of outstanding shares in the Fund. The price at which a purchase or redemption is effected is based on the next calculation of NAV after the order is received by an authorized financial institution or U.S. Bancorp Fund Services, LLC, the Fund's transfer agent (the "Transfer Agent"), and under no circumstances will any order be accepted for purchase or redemption after the NAV calculation. Any order received after the close of trading on the Exchange will be processed at the NAV as determined as of the close of trading on the next day the Exchange is open.

Shares will only be priced on Business Days. In addition, foreign securities held by the Fund may trade on weekends or other days when the Fund does not calculate NAV. As a result, the market value of these investments may change on days when shares of the Fund cannot be bought or sold.

The Fund values its assets based on current market values when such values are available. These prices normally are supplied by an independent pricing service. Equity securities held by the Fund which are listed on a national securities exchange, except those traded on the NASDAQ Stock Market, Inc. ("NASDAQ"), and for which market quotations are available, are valued at the last quoted sale price on the exchange on which the security is principally traded. Securities traded on NASDAQ are valued in accordance with the NASDAQ Official Closing Price, which may not be the last sale price.

If there is no reported sale on the applicable exchange, securities are valued at the mean between the most recent quoted bid and asked prices. In the event such market quotations are not readily available, fair value will be determined using procedures adopted by the Board.

When the Fund uses fair value pricing to determine NAV, securities will not be priced on the basis of quotations from the primary market in which they are traded, but rather may be priced by another method that the Board believes accurately reflects fair value. The Fund's policy is intended to result in a calculation of the Fund's NAV that fairly reflects security values as of the time of pricing. However, fair values determined pursuant to the Fund's procedures may not accurately reflect the price that the Fund could obtain for a security if it were to dispose of that security as of the time of pricing.

Prices of foreign securities or other assets quoted in foreign currencies are translated into U.S. dollars at current rates. If a significant event occurs in a foreign market after the close of the exchange that may affect a security's value, such security may be valued at its fair value pursuant to the procedures discussed above. The Fund has retained a pricing service to assist in valuing foreign securities in order to adjust for possible changes in value that may occur between the close of the foreign exchange and the time at which the Fund calculates its NAV. The fair value pricing service may employ quantitative models in determining fair value.

### ***PURCHASE OF SHARES***

The Fund's shares are offered on a continuous basis and are sold without any sales charges. You may purchase shares as specified below. The minimum initial investments for Institutional Shares and Investor Shares of the Fund are \$25,000 and \$1,000, respectively. There is no minimum initial investment for Retirement Shares of the Fund. Additional investments may be made in any amount. The Fund reserves the right to change the criteria for eligible investors and investment minimums, and the investment minimums may be waived at the discretion of the Adviser.

Shares of the Fund have not been registered for sale outside of the United States. The Fund generally does not sell shares to investors residing outside the United States, even if they are United States citizens or lawful permanent residents, except to investors with United States military APO or FPO addresses.

**By Mail:** You may purchase shares by sending a check in U.S. dollars drawn on a U.S. bank payable to the Hood River International Opportunity Fund, indicating the name and share class of the Fund you are purchasing, and the dollar amount to be purchased, along with a completed application. If a subsequent investment is being made, write your account number on the check and send it together with the Invest by Mail form from your most recent confirmation statement received from the Transfer Agent. If you do not have the Invest by Mail form, include the Fund name, your name, address, and account number on a separate piece of paper along with your check. The Fund will not accept payment in cash or money orders. The Fund does not accept post-dated checks or any conditional order or payment. To prevent check fraud, the Fund will not accept third party checks, Treasury checks, credit card checks, traveler's checks or starter checks for the purchase of shares. Send the check and account application to:

**Regular mail:**

Hood River International Opportunity Fund  
c/o U.S. Bank Global Fund Services  
P. O. Box 701  
Milwaukee, WI 53201-0701

**Overnight mail:**

Hood River International Opportunity Fund  
c/o U.S. Bank Global Fund Services  
615 East Michigan Street, 3<sup>rd</sup> Floor  
Milwaukee, WI 53202

The Fund does not consider the U.S. Postal Service or other independent delivery services to be its agent. Therefore, deposit in the mail or with such services, or receipt at the Transfer Agent's post office box, of purchase orders does not constitute receipt by the Transfer Agent. Receipt of purchase orders is based on when the order is received at the Transfer Agent's offices.

Purchase orders must be received prior to Market Close (generally, 4:00 p.m. Eastern Time) to be eligible for same day pricing.

**By Wire:** If you are making your first investment in the Fund by wire, before you wire funds the Transfer Agent must have a completed account application. You may mail or deliver overnight your account application to the Transfer Agent at the addresses provided under "By Mail" above. Upon receipt of your completed account application, the Transfer Agent will establish an account for you. The account number assigned will be required as part of the instruction that should be provided to your bank to send the wire. Your bank must include both the name of the Fund you are purchasing, the account number, and your name so that monies can be correctly applied.

Before sending funds for initial or subsequent investment by wire, please contact the Transfer Agent to advise them of your intent to wire funds. This will ensure prompt and accurate credit upon receipt of your wire. Wired funds must be received prior to Market Close (generally, 4:00 p.m. Eastern Time) to be eligible for same day pricing. The Fund and U.S. Bank N.A. are not responsible for the consequences of delays resulting from the banking or Federal Reserve wire system, or from incomplete wiring instructions. Your bank should transmit funds by wire to:

Wire to:	U.S. Bank National Association 777 East Wisconsin Avenue Milwaukee, WI 53202
ABA Number:	75000022
Credit:	U.S. Bancorp Fund Services, LLC
Account:	112-952-137
Further Credit:	Hood River International Opportunity Fund (Shareholder Name/Account Registration (Shareholder Account Number)

**By Telephone:** Investors may purchase additional shares of the Fund by calling, toll-free, (800) 497-2960. If you accepted this option on your account application, and your account has been open for at least 7 business days, telephone orders, in any amount will be accepted via electronic funds transfer from your bank account through the Automated Clearing House ("ACH") network. You must have banking information established on your account prior to making a purchase. If your order

is received prior to Market Close (generally, 4:00 p.m. Eastern Time), your shares will be purchased at the NAV calculated on the day your order is placed.

Purchase orders by telephone must be received by or prior to Market Close (generally, 4:00 p.m. Eastern Time). During periods of high market activity, shareholders may encounter higher than usual call waits. Please allow sufficient time to place your telephone transaction.

**Automatic Investment Plan:** Once your account has been opened you may make additional purchases of the Fund at regular intervals through the Automatic Investment Plan (“AIP”). The AIP provides a convenient method to have monies deducted from your financial institution account for investment into the Fund on a monthly, bi-monthly, quarterly, semi-annual, or annual basis. In order to participate in the AIP, each purchase must be in the amount of \$50 or more, and your financial institution must be a member of the ACH network. To begin participating in the AIP, please complete the AIP section on the account application or call the Transfer Agent at (800) 497-2960 for instructions. Any request to change or terminate your AIP should be submitted to the Transfer Agent at least five days prior to the effective date.

**Payroll Investment Plan:** The Payroll Investment Plan (“PIP”) permits you to make regularly scheduled purchases of Fund shares through payroll deductions. To open a PIP account, you must submit a payroll deduction form to your employer’s payroll department after your account has been established with the Fund. Then, a portion of your paycheck will automatically be transferred to your PIP account for as long as you wish to participate in the PIP. It is the responsibility of your employer, not the Fund, the Distributor, the Adviser, or the Transfer Agent, to arrange for transactions under the PIP. The Fund reserves the right to vary its minimum purchase requirements for employees participating in a PIP. For more information regarding the PIP call (800) 497-2960.

**Additional Information Regarding Purchases:** Purchase orders received by the Transfer Agent in good order before Market Close will be priced at the NAV that is determined as of Market Close. “Good order” means your redemption request includes: (1) the name of the Fund, (2) the number of shares or dollar amount to be redeemed, (3) the account number, and (4) signatures by all of the shareholders whose names appear on the account registration with a signature guarantee, if applicable. Purchase orders received in good order after Market Close will be priced as of the close of regular trading on the following Business Day. Purchase requests not in good order may be rejected.

Any purchase order may be rejected if the Fund determines that accepting the order would not be in the best interest of the Fund or its shareholders. The Fund reserves the right to reject any account application. The Transfer Agent will charge a \$25 fee against a shareholder’s account, in addition to any loss sustained by the Fund, for any check or other method of payment that is returned. The Fund reserves the right to reject any account application. It is the policy of the Fund not to accept applications under certain circumstances or in amounts considered disadvantageous to shareholders.

**Individual Retirement Accounts:** The Fund offers prototype documents for a variety of retirement accounts for individuals and small businesses. Please call (800) 497-2960 for information on:

- Individual Retirement Plans, including Traditional IRAs and Roth IRAs
- Small Business Retirement Plans, including Simple IRAs and SEP IRAs
- Coverdell Education Savings Accounts

There may be special distribution requirements for a retirement account, such as required distributions or mandatory Federal income tax withholding. For more information, call the number listed above. You may be charged a \$15 annual account maintenance fee for each retirement account up to a maximum of \$30 annually and a \$25 fee for transferring assets to another custodian or for closing a retirement account.

The Fund reserves the right to suspend the offering of shares.

### ***REDEMPTION OF SHARES***

You may sell (redeem) your shares on any Business Day. Redemptions are effected at the NAV next determined after the Transfer Agent or authorized financial intermediary has received your redemption request. The Fund’s name, the share class name, your account number, the number of shares or dollar amount you would like redeemed and the signatures by all of the shareholders whose names appear on the account registration should accompany any redemption requests. You may elect to have redemption proceeds paid by check, by wire (for amounts of \$1,000 or more) or by electronic funds transfer via ACH. Proceeds will be sent to the address or bank account on record. For payment through the ACH network, your bank must be an ACH member and your bank account information must be maintained on your Fund account. If you purchased your shares through a financial intermediary (as discussed under “Purchasing and Redeeming Shares Through a Financial Intermediary,” below) you should contact the financial intermediary for information relating to redemptions.

The Fund typically expects to pay redemption proceeds on the next Business Day after the redemption request is received in good order and prior to Market Close (generally, 4:00 p.m. Eastern Time), regardless of whether the redemption proceeds are sent via check, wire, or ACH transfer. If the Fund has sold securities to generate cash to meet your redemption request, the redemption proceeds may be postponed until the first Business Day after the Fund receives the sales proceeds. Under unusual circumstances, the Fund may suspend redemptions, or postpone payment for up to seven days, as permitted by federal securities law. The Fund typically expects to meet redemption requests by paying out proceeds from cash or cash equivalent portfolio holdings, or by selling portfolio holdings if consistent with the management of the Fund. The Fund reserves the right to redeem in-kind as described under “In-Kind Redemptions,” below. Redemptions in-kind are typically used to meet redemption requests that represent a large percentage of the Fund’s net assets in order to minimize the effect of large redemptions on the Fund and its remaining shareholders. Redemptions in-kind may be used regularly in circumstances as described above, and may also be used in stressed market conditions. If shares to be redeemed represent a recent investment made by check or ACH transfer, the Fund reserves the right to not make the redemption proceeds available until it has reasonable grounds to believe that the check or ACH transfer has been collected (which may take up to 10 calendar days). Shareholders can avoid this delay by utilizing the wire purchase option.

**By Mail:** If you redeem your shares by mail, you must submit written instructions which indicate the Fund’s name and class you are redeeming shares from, your account number, the number of shares or dollar amount you would like redeemed and the signatures by all of the shareholders whose names appear on the account registration along with a signature guarantee, if applicable. Your redemption request should be sent to:

**Regular mail:**

Hood River International Opportunity Fund  
c/o U.S. Bank Global Fund Services  
P. O. Box 701  
Milwaukee, WI 53201-0701

**Overnight mail:**

Hood River International Opportunity Fund  
c/o U.S. Bank Global Fund Services  
615 East Michigan Street, 3<sup>rd</sup> Floor  
Milwaukee, WI 53202

The Fund does not consider the U.S. Postal Service or other independent delivery services to be its agent. Therefore, deposit in the mail or with such services, or receipt at the Transfer Agent’s post office box, of redemption requests does not constitute receipt by the Transfer Agent. Receipt of redemption requests is based on when the order is received at the Transfer Agent’s offices. Redemption requests must be received prior to Market Close (generally, 4:00 p.m. Eastern Time) to be eligible for same day pricing.

**By Wire:** Wires are subject to a \$15 fee paid by you, but you do not incur any charge when proceeds are sent via the ACH system.

**By Telephone:** If you prefer to redeem your shares by telephone, you must accept telephone options on your account application. You may then initiate a redemption of shares up to the amount of \$50,000 by calling the Transfer Agent at (800) 497-2960. Adding telephone options to an existing account may require a signature guarantee or other acceptable form of authentication from a financial institution source.

Investors may have a check sent to the address of record, may wire proceeds to a shareholder’s bank account of record, or proceeds may be sent via electronic funds transfer through the ACH network, also to the bank account of record. Wires are subject to a \$15 fee paid by the investor, but the investor does not incur any charge when proceeds are sent via the ACH system.

Redemption requests must be received by or before the close of regular trading on the Exchange on any Business Day. During periods of high market activity, shareholders may encounter higher than usual call waits. Please allow sufficient time to place your telephone transaction. If you are unable to contact the Fund by telephone, you may mail your redemption request in writing to the address noted above. Once a telephone transaction has been accepted, it may not be canceled or modified after Market Close (generally, 4:00 p.m. Eastern Time).

Before executing an instruction received by telephone, the Transfer Agent will use reasonable procedures to confirm that the telephone instructions are genuine. The telephone call may be recorded and the caller may be asked to verify certain personal identification information. If the Fund or its agents follow these procedures, they cannot be held liable for any loss, expense or cost arising out of any telephone redemption request that is reasonably believed to be genuine. This includes fraudulent or

unauthorized requests. If an account has more than one owner or authorized person, the Fund will accept telephone instructions from any one owner or authorized person.

**Systematic Withdrawal Plan:** As another convenience, you may redeem your Fund shares through the Systematic Withdrawal Plan (“SWP”). Under the SWP, you may choose to receive a specified dollar amount, generated from the redemption of shares in your account, on a monthly, bi-monthly, quarterly, semi-annual, or annual basis. In order to participate in the SWP, your account balance must be at least \$10,000 and each payment should be a minimum of \$100. If you elect this method of redemption, the Fund will send a check to your address of record, or will send the payment via electronic funds transfer through the ACH network, directly to your bank account. The SWP may be terminated at any time by the Fund. You may also elect to terminate your participation in the SWP at any time by contacting the Transfer Agent at least 5 days prior to the next withdrawal.

A withdrawal under the SWP involves a redemption of shares and may result in a gain or loss for federal income tax purposes. In addition, if the amount requested to be withdrawn exceeds the amount available in your Fund account, which includes any dividends credited to your account, the account will ultimately be depleted.

**In-Kind Redemptions:** The Fund reserves the right to honor redemption requests by making payment in whole or in part by a distribution of securities from the Fund’s portfolio (a “redemption in-kind”), and may do so in the form of pro-rata slices of the Fund’s portfolio, individual securities or a representative basket of securities. Redemptions in-kind are taxable in the same manner to a redeeming shareholder as redemptions paid in cash for federal income tax purposes. Securities redeemed in-kind will be subject to market risk until they are sold. In addition, the sale of securities received in-kind may be subject to brokerage fees, and may give rise to taxable gains or losses.

**Signature Guarantees:** A signature guarantee, from either a Medallion program member or a non-Medallion program member, is required in the following situations:

- If ownership is being changed on your account;
- When redemption proceeds are payable or sent to any person, address or bank account not on record;
- When a redemption is received by the Transfer Agent and the account address has been changed within the last 30 calendar days; or
- For all redemptions in excess of \$50,000 from any shareholder account.

The Fund may waive any of the above requirements in certain instances. In addition to the situations described above, the Fund and/or the Transfer Agent reserve the right to require a signature guarantee in other instances based on the circumstances relative to the particular situation.

Non-financial transactions, including establishing or modifying certain services on an account, may require a signature guarantee, signature verification from a Signature Validation Program member, or other acceptable form of authentication from a financial institution source.

Signature guarantees will generally be accepted from domestic banks, brokers, dealers, credit unions, national securities exchanges, registered securities associations, clearing agencies and savings associations, as well as from participants in the New York Stock Exchange Medallion Signature Program and the Securities Transfer Agents Medallion Program (“STAMP”). A notary public is not an acceptable signature guarantor.

**IRA and other retirement plan redemptions:** If you have an IRA, you must indicate on your written redemption request whether or not to withhold federal income tax. Redemption requests failing to indicate an election not to have tax withheld will be subject to 10% withholding. Shares held in IRA accounts may also be redeemed by telephone at (800) 497-2960. Investors will be asked whether or not to withhold taxes from any distribution.

#### ***PURCHASING AND REDEEMING SHARES THROUGH A FINANCIAL INTERMEDIARY***

You may purchase and redeem shares of the Fund through certain financial intermediaries (and their agents) that have made arrangements with the Fund to sell their shares and receive purchase and redemption orders on behalf of the Fund. When you place your purchase or redemption order with such a financial intermediary, your order is treated as if you had placed it directly with the Transfer Agent, and you will pay or receive the next NAV calculated by the Fund. Financial intermediaries may be authorized by the Distributor to designate other financial intermediaries to accept orders on the Fund’s behalf. An order is deemed to be received when the Fund, a financial intermediary or, if applicable, a financial intermediary’s authorized designee accepts the order. The financial intermediary holds your shares in an omnibus account in the financial intermediary’s name, and the financial intermediary maintains your individual ownership records. Your financial intermediary may charge you a fee for handling your purchase and redemption orders. The financial intermediary is

responsible for processing your order correctly and promptly, keeping you advised regarding the status of your individual account, confirming your transactions and ensuring that you receive copies of the Fund's Prospectus.

The Distributor, on behalf of the Fund, may enter into agreements with financial intermediaries that provide recordkeeping, transaction processing and other administrative services for customers who own Fund shares. The Adviser and/or its affiliates may pay financial intermediaries for such services. The fee charged by financial intermediaries may be based on the number of accounts or may be a percentage of the average value of accounts for which the financial intermediary provides services.

### ***EXCHANGING SHARES***

You may exchange all or a portion of your investment from the Fund in the Hood River Fund Family to an identically registered account in the same share class of another Fund in the Hood River Fund Family. Any new account established through an exchange will be subject to the minimum investment requirements described above under "Purchase of Shares," unless that account qualifies for a waiver of the initial investment requirement. Exchanges will be executed on the basis of the relative NAV of the shares exchanged. An exchange is considered to be a sale of shares for federal income tax purposes which may result in a taxable capital gain or loss. Call the Fund at (800) 497-2960 to learn more about exchanges.

### ***SHARE CLASS CONVERSIONS***

You may convert shares of one share class of the Fund for a different share class of the Fund if you meet the minimum initial investment, eligibility criteria and other requirements for investment in the share class you are converting into. Share class conversions are based on the relevant NAVs of the applicable share classes at the time of the conversion, and no charge is imposed. A conversion from one class to another within the Fund will generally not be a taxable transaction.

To obtain more information about share class exchanges, or to place exchange orders, contact the Transfer Agent, or, if your shares are held in an account with a financial intermediary, contact the financial intermediary. Your financial intermediary may impose conditions on such transactions in addition to those disclosed in this Prospectus, or may not permit share class exchanges. The Fund reserves the right to modify or eliminate the share class exchange feature.

### ***FREQUENT PURCHASES AND REDEMPTIONS***

The Fund is intended to be a long-term investment vehicle and is not designed to provide investors with a means of speculating on short-term market movements (market timing). "Market timing" generally refers to frequent or excessive trades into or out of a mutual fund in an effort to anticipate changes in market prices of its investment portfolio. Frequent purchases and redemptions of Fund shares can disrupt the management of the Fund, negatively affect the Fund's performance, and increase expenses for all of the Fund's shareholders. In particular, frequent trading can: (i) force the Fund's portfolio managers to hold larger cash positions than desired instead of fully investing the Fund, which can result in lost investment opportunities; (ii) cause unplanned and inopportune portfolio turnover in order to meet redemption requests; (iii) increase broker-dealer commissions and other transaction costs as well as administrative costs for the Fund; and (iv) trigger taxable gains for other shareholders. Also, some frequent traders engage in arbitrage strategies, by which these traders seek to exploit pricing anomalies that can occur when the Fund invests in securities that are thinly traded (some small-cap stocks, for example) or are traded primarily in markets outside of the U.S. Frequent traders using arbitrage strategies can dilute the Fund's NAV for long-term shareholders.

***If you intend to trade frequently or use market timing investment strategies, you should not purchase shares of the Fund.***

The Board has adopted policies and procedures with respect to frequent purchases and redemptions of Fund shares. The policy is intended to discourage excessive trading in the Fund's shares that may harm long-term investors and to make reasonable efforts to detect and deter excessive trading. The Fund reserves the right to reject any purchase request order at any time and for any reason, without prior written notice. The Fund may, in certain circumstances, reverse a transaction determined to be abusive.

The Fund will generally monitor trading activity within a 90 day period. The Fund may consider trading activity over a longer period than 90 days and may take into account market conditions, the number of trades, and the amount of the trades in making such determinations. The Fund may modify its procedures from time to time without prior notice regarding the detection of excessive trading or to address specific circumstances. In applying these policies, the Fund considers the information available at the time and may consider trading activity in multiple accounts under common ownership, control, or influence.

When excessive or short-term trading is detected, the party involved may be banned from future trading in the Fund. Judgments related to the rejection of purchase and the banning of future trades are inherently subjective and involve some selectivity. The Fund will seek to make judgments and applications that are consistent with the interests of the Fund's shareholders.

There is no guarantee that the Fund or its agents will be able to detect market timing or abusive trading activity or the shareholders engaged in such activity, or, if it is detected, to prevent its recurrence.

In order for a financial intermediary to purchase shares of the Fund for an “omnibus” account, in nominee name or on behalf of another person, the Trust will enter into shareholder information agreements with such financial intermediary or its agent. These agreements require each financial intermediary to provide the Fund access, upon request, to information about underlying shareholder transaction activity in these accounts. If a shareholder information agreement has not been entered into by a financial intermediary, such financial intermediary will be prohibited from purchasing Fund shares for an “omnibus” account, in nominee name or on behalf of another person.

The Fund’s policies for deterring excessive trading in Fund shares are intended to be applied uniformly to all Fund shareholders to the extent practicable. Some intermediaries, however, maintain omnibus accounts in which they aggregate orders of multiple investors and forward the aggregated orders to the Fund. Because the Fund receives these orders on an aggregated basis and because these omnibus accounts may trade with numerous fund families with differing market timing policies, the Fund is substantially limited in its ability to identify or deter excessive traders or other abusive traders. The Fund will use its best efforts to obtain the cooperation of intermediaries to identify excessive traders and to prevent or limit abusive trading activity to the extent practicable. Nonetheless, the Fund’s ability to identify and deter frequent purchases and redemptions of Fund shares through omnibus accounts is limited. The Fund’s success in accomplishing the objectives of the policies concerning excessive trading in Fund shares in this context depends significantly upon the cooperation of the intermediaries, which may have adopted their own policies regarding excessive trading which are different than those of the Fund. In some cases, the Fund may rely on the excessive trading policies of the financial intermediaries in lieu of applying the Fund’s policies when the Fund believes that the policies are reasonably designed to prevent excessive trading practices that are detrimental to the Fund. If a financial intermediary fails to enforce the Fund’s policies with respect to market timing and other abusive trading activity, the Fund may take other actions, including terminating its relationship with such financial intermediary.

#### ***OTHER FUND POLICIES***

**Small Accounts:** If the value of your account falls below the investment minimum, the Fund may ask you to increase your balance. If the account value is still below the investment minimum after 60 days, the Fund may redeem your shares, close your account, and send you the proceeds. The Fund will not close your account if it falls below the investment minimum solely as a result of a reduction in your account’s market value.

**Customer Identification Program:** In compliance with the USA PATRIOT Act of 2001, please note that the Transfer Agent will verify certain information on your Account Application as part of the Fund’s Anti-Money Laundering Program. As requested on the Application, you must supply your full name, date of birth, social security number and permanent street address. Permanent addresses containing only a P.O. Box will not be accepted. If you are opening an account in the name of a legal entity (e.g., a partnership, business trust, limited liability company, corporation, etc.), you will be required to supply the identity of the beneficial owner or controlling person(s) of the legal entity prior to the opening of your account. Additional information may be required in certain circumstances. Applications without such information may not be accepted. To the extent permitted by applicable law, the Fund reserves the right to: (i) place limits on transactions in an investor’s account until the investor’s identity is verified; (ii) refuse an investment in the Fund; or (iii) involuntarily redeem an investor’s shares and close an account in the event that an investor’s identity is not verified.

**Householding:** You may occasionally receive proxy statements and other regulatory documents for the Fund. In an effort to decrease costs and to reduce the volume of mail you receive, when possible, only one copy of these documents will be sent to shareholders who are part of the same family and share the same address. If you would like to discontinue householding for your accounts please call, toll-free, (800) 497-2960 to request individual copies of these documents. Once the Fund receives notice to stop householding, we will begin sending individual copies thirty days after receiving your request. This policy does not apply to account statements.

**Lost Shareholders:** It is important that the Fund maintains a correct address for each shareholder. An incorrect address may cause a shareholder's account statements and other mailings to be returned to the Fund. Based upon statutory requirements for returned mail, the Fund will attempt to locate the shareholder or rightful owner of the account. If the Fund is unable to locate the shareholder, then it will determine whether the shareholder's account can legally be considered abandoned. Your mutual fund account may be transferred to your state of residence if no activity occurs within your account during the "inactivity period" specified in your state's abandoned property laws. The Fund is legally obligated to escheat (or transfer) abandoned property to the appropriate state's unclaimed property administrator in accordance with statutory requirements. The shareholder's last known address of record determines which state has jurisdiction. Shareholders with a state of residence in Texas have the ability to designate a representative to receive legislatively required unclaimed property due diligence notifications. Please contact the Texas Comptroller of Public Accounts for further information.

### ***DISTRIBUTIONS***

Distributions from the Fund's net investment income, if any, are declared and paid annually. Any net capital gain realized by the Fund also will be distributed annually. The Fund's distributions, whether received in cash or reinvested in additional shares of the Fund, may be subject to federal, state and local income tax.

Distributions are payable to the shareholders of record at the time the distributions are declared (including holders of shares being redeemed, but excluding holders of shares being purchased). All distributions will be reinvested in additional Fund shares, unless you choose one of the following options: (1) receive distributions of net capital gain in cash, while reinvesting net investment income distributions in additional Fund shares; (2) receive all distributions in cash; or (3) reinvest net capital gain distributions in additional Fund shares, while receiving distributions of net investment income in cash. If you elect to receive distributions paid in cash, and the U.S. Postal Service cannot deliver the check, or if a check remains outstanding for six months, the Fund reserves the right to reinvest the distribution check in your account, at the Fund's current NAV, and to reinvest all subsequent distributions. You may change the distribution option on your account at any time. If you wish to change your distribution option, write or call the Transfer Agent at least 5 days prior to the record date for the distribution. Shares become entitled to receive distributions on the day after the shares are issued.

### ***TAXES***

Changes in income tax laws, potentially with retroactive effect, could impact the Fund's investments or the tax consequences to you of investing in the Fund.

Distributions of the Fund's investment company taxable income (which includes, but is not limited to, interest, dividends, net short-term capital gain and net gain from foreign currency transactions), if any, are generally taxable to the Fund's shareholders as ordinary income. Although the Fund expects that most or all of its distributions of investment company taxable income will be taxed at the federal income tax rates applicable to ordinary income, for a non-corporate shareholder, to the extent that the Fund's distributions of investment company taxable income are attributable to and reported as "qualified dividend" income (generally, dividends received by the Fund from U.S. corporations, corporations incorporated in a possession of the U.S., and certain foreign corporations that are eligible for the benefits of a comprehensive tax treaty with the U.S.), such income may be subject to tax at the reduced federal income tax rates applicable to long-term capital gain, if certain holding period requirements have been satisfied by the shareholder. For a corporate shareholder, a portion of the Fund's distributions of investment company taxable income may qualify for the intercorporate dividends-received deduction to the extent the Fund receives dividends directly or indirectly from U.S. corporations, reports the amount distributed as eligible for the deduction and the corporate shareholder meets certain holding period requirements with respect to its shares. To the extent that the Fund's distributions of investment company taxable income are attributable to net short-term capital gain, such distributions will be treated as ordinary income and generally cannot be offset by a shareholder's capital losses from other investments.

Except in the case of certain exempt shareholders, if a shareholder does not furnish the Fund with its correct Taxpayer Identification Number and certain certifications or the Fund receives notification from the Internal Revenue Service ("IRS") requiring back-up withholding, the Fund is required by federal law to withhold federal income tax from the shareholder's distributions and redemption proceeds at a rate set under Section 3406 of the Internal Revenue Code of 1986, as amended, for United States residents.

Distributions of the Fund's net capital gain (net long-term capital gain less net short-term capital loss) are generally taxable to the Fund's shareholders as long-term capital gain regardless of the length of time that a shareholder has owned Fund shares. Distributions of net capital gain are not eligible for qualified dividend income treatment or the dividends-received deduction referenced above.

You will be taxed in the same manner whether you receive your distributions (of investment company taxable income or net capital gain) in cash or reinvest them in additional Fund shares. Distributions are generally taxable when received. However, distributions declared in October, November or December to shareholders of record and paid the following January are taxable as if received on December 31.

In addition to the federal income tax, certain individuals, trusts and estates may be subject to a Net Investment Income ("NII") tax of 3.8%. The NII tax is imposed on the lesser of: (i) the taxpayer's investment income, net of deductions properly allocable to such income; or (ii) the amount by which the taxpayer's modified adjusted gross income exceeds certain thresholds (\$250,000 for married individuals filing jointly, \$200,000 for unmarried individuals and \$125,000 for married individuals filing separately). The Fund's distributions are includable in a shareholder's investment income for purposes of this NII tax. In addition, any capital gain realized by a shareholder upon a sale, exchange or redemption of Fund shares is includable in such shareholder's investment income for purposes of this NII tax.

Shareholders that sell, exchange or redeem shares generally will have a capital gain or loss from the sale, exchange or redemption. The amount of the gain or loss and the applicable rate of federal income tax will depend generally upon the amount paid for the shares, the amount received from the sale, exchange or redemption (including in-kind redemptions) and how long the shares were held by a shareholder. Gain or loss realized upon a sale, exchange or redemption of Fund shares will generally be treated as a long-term capital gain or loss if the shares have been held for more than one year and, if held for one year or less, as short-term capital gain or loss. Any loss arising from the sale, exchange or redemption of shares held for six months or less, however, is treated as a long-term capital loss to the extent of any distributions of net capital gain received or deemed to be received with respect to such shares. In determining the holding period of such shares for this purpose, any period during which your risk of loss is offset by means of options, short sales or similar transactions is not counted. If you purchase Fund shares (through reinvestment of distributions or otherwise) within 30 days before or after selling or redeeming other Fund shares at a loss, all or part of that loss will not be deductible and will instead increase the basis of the new shares.

Some foreign governments levy withholding taxes against dividends and interest income. Although in some countries a portion of these taxes is recoverable, the non-recovered portion will reduce the return on the Fund's securities. If more than 50% of the value of the Fund's total assets at the close of its taxable year consists of stock and securities in foreign corporations, the Fund will be eligible to, and may, file an election with the IRS that would enable the Fund's shareholders, in effect, to receive the benefit of the foreign tax credit with respect to any income taxes paid by the Fund to foreign countries and U.S. possessions. If the Fund makes such an election, you will be notified. Please see the SAI for additional information regarding the foreign tax credit.

The Fund is required to report to certain shareholders and the IRS the adjusted cost basis of Fund shares acquired on or after January 1, 2012 when those shareholders subsequently sell or redeem those shares. The Fund will determine adjusted cost basis using the average cost method unless you elect in writing any alternate IRS-approved cost basis method. Please see the SAI for more information regarding cost basis reporting.

The federal income tax status of all distributions made by the Fund for the preceding year will be annually reported to shareholders. Distributions made by the Fund may also be subject to state and local taxes. Additional tax information may be found in the SAI.

This section is not intended to be a full discussion of federal income tax laws and the effect of such laws on you. There may be other federal, state, foreign or local tax considerations applicable to a particular investor. You are urged to consult your own tax advisor.

## **FINANCIAL HIGHLIGHTS**

Because the Fund has recently commenced operations, there are no financial highlights available at this time.

## **PRIVACY NOTICE**

### *Notice of Privacy Policy & Practices*

Protecting the privacy of Fund shareholders is important to us. The following is a description of the practices and policies through which we protect the privacy and security of your non-public personal information.

### *What Information We Collect*

We collect and maintain information about you so that we can open and maintain your account in the Fund and provide various services to you. We collect non-public personal information about you from the following sources:

- information we receive about you on applications or other forms;
- information you give us orally; and
- information about your transactions with us or others.

The types of non public personal information we collect and share can include:

- social security number;
- account balances;
- account transactions;
- transaction history;
- wire transfer instructions; and
- checking account information.

### *What Information We Disclose*

We do not disclose any non-public personal information about shareholders or former shareholders of the Fund without the shareholder's authorization, except as permitted by law or in response to inquiries from governmental authorities. We may share information with affiliated parties and unaffiliated third parties with whom we have contracts for servicing the Fund. We will provide unaffiliated third parties with only the information necessary to carry out their assigned responsibility.

### *How We Protect Your Information*

All shareholder records will be disposed of in accordance with applicable law. We maintain physical, electronic and procedural safeguards to protect your non-public personal information and require third parties to treat your non-public personal information with the same high degree of confidentiality. In the event that you hold shares of the Fund through a financial intermediary, including, but not limited to, a broker-dealer, bank or trust company, the privacy policy of your financial intermediary would govern how your non-public personal information would be shared with unaffiliated third parties.

If you have any questions or concerns regarding this notice or our Privacy Policy, please contact us at (800) 497-2960.

## **Statement of Additional Information**

The SAI provides additional details about the investments and techniques of the Fund and certain other additional information. A current SAI is on file with the SEC and is incorporated into this Prospectus by reference. This means that the SAI is legally considered a part of this Prospectus even though it is not physically within this Prospectus.

## **Annual and Semi-Annual Reports**

The Fund's annual and semi-annual reports provide additional information about the Fund's investments, including the most recent financial reports and portfolio holdings. The annual reports contain a discussion of the market conditions and investment strategies that affected the Fund's performance during the Fund's prior fiscal year.

The Fund's shareholder reports will be made available on a website, and you will be notified and provided with a link each time a report is posted to the website. You may request to receive paper reports from the Fund or from your financial intermediary, free of charge, at any time. You may also request to receive documents through e-delivery.

Copies of these documents and answers to questions about the Fund, may be obtained without charge, upon request, by contacting:
